Presidents Report

March 2022

The roar is nearly here I hope you've all got your boots oiled up and packs full of gear ready to go ... The weather has been great so far hopefully it we get a few frosts and the weather holds out for late March April for all the roar blocks of your lucky enough to have a block. We're holding our Roaring comp again this month so bring your roar horn along to the meeting is always a good laugh and blows the cob webs out of the roar horn. Boot camp is going well there's still time to come along and get a little fitness in before you head out into the hills. Hope to see you at the meeting.

Cheers Shaun

Editorial

The Roar is not far away now, another month, and some will be heading to the hills.

Something to look forward too for many. A change in these current times.

It was good to see National Office send out info on the recent changes to the Firearms Regulations. The ones that directly affect the average hunter, are not as severe as was in the draft. Hopefully as a result of those making the decisions taking into account the submissions on the subject. Thanks to all those that did, positive changes (from what was in the draft) make it feel it was worth the effort. To those who did not submit, have a think and do it next time, numbers do count. One can't prevent change (it is constant they tell us). But one can change the degree and direction of change if enough raise the same point.

Unless one is dealing with ideological driven evangelist's normally of the green persuasion. Don't leave submissions to the other fellow, he may be doing the same. So take care out there, take care of your, and your mates and fellow hunters health, in all things, and in all ways. Enjoy your selves and create memories, but be safe doing it.

“Chasing Whitetail Bucks is a classy book, one to pour over and one that will withstand rereading... and rereading. Photo Competitions – John DeLury

I admit that I am not the world's best photographer, but I have numerous placings in the branch photo competitions over the years. I suspect the reason for that is that most years there are few other entries. Perhaps members are not aware of the competitions or how to go about entering. The Branch competition is simple. This is advertised in the branch newsletter which will say who to deliver your pictures to. The National Competitions are more formal and require completion of an entry form. See the secretary for this.

I can say that having been to a number of national conferences and viewed the National Photo competitions I have often seen photos entered in the Branch competition that are as good as any entered in the Nationals.

Now is the time to be thinking about an entry. Save a copy of your digital image in a separate folder and when our competition is announced get a print copy made in the size below.

National competition categories

Game Animals

Other Wildlife – Birds

Other Wildlife – Mammals

Other Wildlife – Insects, Reptiles & Amphibians

Scenic

Flora

Human Interest

Southland Branch Categories are Game Animals, Other Wildlife, Scenic, Human Interest.

Maximum size of photograph is 5 inches by 7 inches (127mm x 178mm) or 5 inches by 7 inches (127 mm x 178 mm) Photographs must be un-mounted. Up to the pictures can be entered in each category. Photos must have been taken in the past 12 months and you must be financial at the time of taking and entry.
